

Safety Council Consulting Services

Don't have the time or expertise?
We can fill the gaps.
Give *safety* the focus it deserves!

Effective company safety and health programs improve employee productivity, reduce insurance costs and increase the company's bottom line.

Safety Council Consulting Services help companies:

- Reduce workplace hazards to employees, customers and the environment
- Comply with California's stringent safety and health regulations

Common Needs:

- Safety and health programs review, update or development
- Job safety hazard analysis
- Loss cause analysis
- Facility regulatory compliance evaluation
- Cal-OSHA inspection or citation response assistance

Consulting Services are provided by seasoned safety professionals.

Services are tailored to meet companies' individual needs.

Contracts may be based on time and materials or a fixed-fee quote as appropriate for the service and customer preferences. Members of the council enjoy discounts on these services. **Call (209) 472-7233 ext. #8 to arrange for consulting services.**
